Revenue -

Based on the following assumptions:

Tax based, which is provided by CAD on 4/30 & 5/30. HB3 will use 2022 Comptroller Amount released in January 2022 ADA based on flat enrollment from 20-21 with a 94% attendance rate

State Revenue now based on current year property values. No longer a lag in regards to property values in the template

Expenses:

Payroll - based on student ratios in the elementary grades; based on analysis on the secondary campuses Position control determines the overall # of positions throughout the district; funding sources

Non-payroll - Formula driven & non-formula driven

PPA for the campuses instructional budget

Co-curricular/athletics/UIL, etc.

PPA's:

Elementary - \$115, plus \$1,575 for district-wide software

Middle - \$125, plus \$1,575 for district-wide software

High School \$148

Will continue to evaluate adequacy based on availability of federal funds

Departmental

Zero-based budget based on a plan for the year

Note the role of fund balance in the budgeting process:

Fund balance represents the cumulative amount of money earned and not spent over time. Oftentimes it is referred to as a savings account. In its most simplistic explanation, assuming each year your revenue exceeds your expenses, you accumulate those at year-end in an equity account that is referred to in governmental accounting as fund balance. Conversely, in a year that your expenses exceed your revenue, you sustain a loss in the same manner.

The reason you cannot reflect fund balance as revenue in the year you sustain a loss is that it was previously recognized in the year earned.

Each year's accounting is used to measure the results of operations for that fiscal period based on Generally Accepted Accounting Principles. Revenue is recognized in the year earned, and expenses in the year incurred. Annually, the books are closed, and the net effect of the revenues and expenses becomes a balance sheet/fund equity item.

^{**}State Funding Lag (Discussion required for FIRST rating) - Prior to HB 3, prior year property values were used in the formulas to calculate State revenues causing a one-year funding lag – if the local revenue decreased in the year of the property value decline, the State did not recognize that decline until the subsequent year.

Due to HB3, there is compression of the M&O tax rate if property values grow more than 2.5% TEA will calculate M&O tax rate in August
