- PC-less interactive
  - Document Camera, use software through projector
- Remote Input Source
  - PC
  - DVD Player
- Multiple users
- No Shadow

Three Modes of Use

PC Interactive Mode

Use the interactive pen as a mouse to navigate, select, and scroll through content from your computer.

Annotation Mode

Can annotate over content projected from a computer, tablet, document camera, or other source

- ○ Annotation (interactive) mode displays the toolbar on the projected image and lets you use the pen as a mouse to open applications, access links, and operate scroll bars, for example (using one pen at a time). You can also annotate whatever is displayed from your computer (using both pens at the same time).

Whiteboard Mode

Can use one or both interactive pens or to write on the projected "whiteboard" without connecting a computer.

- ○ Whiteboard mode lets you project on one of 3 solid colors or 6 background patterns, and use the toolbar to write or draw on the background. You can also import images from your computer or a document camera. In full screen whiteboard mode, two people can use the pens at the same time.

Command Bar

Control the projector without the remote

| Icon	Description
(power)	Turn off the projector
(source)	Change the image source using a displayed list. (To close the image source list, select the arrow icon at the bottom of the list.)
(zoom)	Zoom into and out of the image
(mute picture)	Turn off the picture and sound
(pause)	Pause video action
(volume down)	Decrease the volume
(volume up)	Increase the volume
(arrow down)	Close the projector control toolbar

Pen Tools

- To select a projected item, such as an icon, tap the projection surface with the pen tip.
- To draw on the projected screen, tap the projection surface with the pen and drag it as necessary.
- To move the pointer, hover over the surface without touching it.
- To switch the pen from drawing tool to eraser, press and hold the power/function button on the side
- To use the pen as a mouse in PC Interactive mode, do the following:
  - To left-click, tap the board with the pen tip.
  - To double-click, tap twice.
  - To right-click, press the power/function button on the side.
  - To click and drag, tap and drag with the pen.
  - To move the cursor, hover over the board without touching it.
Easy Interactive Tools

Software installed on PC

Home Screen

Desktop annotation

Annotation mode starts and the computer's screen is displayed.

New

Whiteboard mode starts and a new file is displayed.

Open

Whiteboard mode starts and you can open a file saved previously. You can select EIT files, or .avi files for Windows or .mov files for OS X.

Recent Files

Whiteboard mode starts and the most recently saved file is opened. You can select EIT files, or .avi files for Windows or .mov files for OS X.

Camera

Annotation mode starts and the image from the document camera is projected.

Web Browser

Annotation Tools

Change custom pen color and width — Write or draw with custom pen

Change highlighter pen color and width — Write or draw with transparent highlighter pen

Use black, red, or blue pen—select small dot for thin lines — Use black, red, or blue pen—select large dot for thick lines

Erase—select small dot for thin eraser — Erase—select large dot for thick eraser

Clear all annotations

Toggle between hiding the toolbar after use and showing it continuously — Exit Easy Interactive Tools

Hide/minimize the toolbar
